Furnishes the information called for

1. It is stated that the Maddur municipal Council is not in a position to bear a moiety of the estimated cost. The municipal Council is however prepared to bear the annual maintenance charges amounting to Rs 3825 which will be met out of the proposed levy of General water tax at the rate of 4 annas in the rupee of annual tax and the town Connection fee of Rs 2 per installation.

2. In view of the poor finances of the Municipality as also in view of the urgent necessity of protected water supply in a Malnad place like Maddur and Shivapura, the DC recommends that the entire cost of the scheme may be met by Govt. There are two estimates one for Rs 40 250 and the other for Rs 15,750 for cheaper scheme for water supply to the place

submitted for orders

Put up with reference to the orders of the Minister for L S G on the file and at para 6 of the notes supra

Maddur Water Supply Scheme

General and Revenue Secretariat | File No 78 of 1941 | [App I III-2

Serial No	
	Reference Paras 1 & 6 above Points for orders 1 Sanction to the estimates for Rs 40,250 & Rs 15,450 for Water supply to Maddur & Shivapura respectively 2 To treat both as protected Water supply and meet the whole Cost from Govt funds It is seen from the Records that the Municipal Council took find it a task even to meet the annual Maintenance Charges Among the ways & means to meet them the M C rely on Levy of toll on Sugar Cane Carts This is problematic, as it would depend on the Conclusions & Inactions of the Sugar Factory Secondly, Should it be decided to meet the whole Cost from Govt funds, the question is one for Financial Consideration as it would set up an encroachment precedent of General financial entitlement, for Consideration in Council & provision of funds in the next Years Budget 4/4/42 (2) Refer para 17 Supra Pl put up the Budget Estimates of this Scheme for which Letter know its financial implications

27) The budget of Mdy for the year 1941-42 is before us. The financial Condition of the Mdy is not very satisfactory. There are heavy arears outstanding Collections under the several heads. A loan of Rs 40,000 has been sanctioned to the Mdy for the formation of extensions at the place recently as 15th Sept 41 after the extension is formed. This means extra Commitments to the Mdy Cl
28) Submitted for orders.

Mdy 4/4 1) The estimates for the supply of water to Maddur & Shivapura come up to Rs 40,250 & Rs 15,750 respectively.

The Mdy Cl have resolved that they cannot meet a moiety of the cost and that the entire cost has to be borne by Govt. The D.C agrees with this view. It is seen from the Budget of the Mdy for 1941-42 that the financial Condition is not quite satisfactory.

2) The annual maintenance charges are estimated at Rs 3,875. This is proposed to be met by the levy of a general water rate at 4 as in the rupee of assessment, levy of fees at Rs 2 for each house connection and levy of bill on private consumers.

The Maintenance charges are heavy and it is difficult for the Mdy Cl to

Serial No

meet the same it would not be possible to say whether the above amount could be raised by the above levies, in the absence of correct data

3) The scheme appears to be costly for a small city like Madurai & is a point for consideration if the cost could also meet the entire cost amounting to Rs 56,000/- in all. Either the M C should come forward to meet half of the cost or the cheaper scheme thought of, in consultation with the Director of Public Health

4) The financial Secy may be consulted on the above scheme

Serial No 15

From The D.C Mandya Dt
No C5-13/39-40 dt 29/6/42
Forwards the information called for.

43) It is stated that the Maddur Minor Md Council is not in a position to bear any expenditure towards the Non-recurring or recurring (viz maintenance charges) Charges of the water supply scheme Nor is it possible for them to raise a bunker loan from Govt as they have already taken a loan of Rs 16,000 for the Formation of Colonies at Maddur & Shivapura and a further loan also for the same appears to be necessary.

44) The necessity for a protected water supply at the place is however stressed in view of the unhealthy of the town

45 The D.C recommends that the entire Cost of the scheme may be met by Govt in view of the foregoing facts As regards the maintenance charges, the Municipal President has been instructed to place the subject before the Council once again and furnish their views in the matter. Before the question can be considered at full length the D C's further report on the views of the Md Council to regard to directly the maintenance charges may perhaps be awaited.

51) It is stated that the Maddur Municipal Council has resolved on 7-9-42 agreeing

2477/2 Scheme of water Supply to Maddur and Shivapura

General and Revenue Secretariat | M/File No 78 of 191/ | [App F III—2

Serial No

to bear the recurring charges viz the annual maintenance charges of the Water Works provided the entire initial charges are borne by Govt The annual maintenance charges of the water works estimated at Rs 3825 are proposed to be met out of the realisations from (1) the proposed levy of a general water tax at the rate of annas 4 for each rupee of the mohtarfa tax, (2) a house Connection fee of Rs 2 per installation and (3) levy of toll on Sugar Cane Carts-

(2) The Schemes of Water Supply to Maddur and Shivapura are estimated to Cost Rs 40,250 and Rs 15,750 respectively the total Cost works thus amount to Rs 56000/- which has to be borne by Govt The Municipal Council is not prepared to meet even a moiety of the Cost of the scheme even if a loan is granted by Govt in order to enable it to meet its quota of the Cost It may tend it more difficult to repay the loan if granted as it has already raised a loan of Rs 14,000/- for the formation of roads at the place

(3) The Sanitary Engineer is of the opinion that it may not be possible to undertake at this stage these schemes for due to non-availability of the G I pipes in the market

NOTE—Co tn sheet

Scheme of water Suthly to Maddur and Shivapura

2477/L

Mc File No 78 of 194/ | General and Revenue Secretariat

Serial No

Under similar circumstances the Schemes of water Suthly to Ramanagaram town and Madhugiri town were have been ordered to be deferred

But the DC recommends that as there is really an urgent need for protected water Suthly to Maddur and Shivapura, the schemes proposal may be sanctioned and the scheme taken up for execution during the current year

~~Babu for orders with reference to para 38~~ of the letter

The gross receipts and expenditure of the only for the current year amount to Rs 16,995/- and Rs 16967 leaving a closing balance of Rs 28 only which is far below the statutory minimum. The normal expenditure is however within the normal income but the financial Condition not Satisfactory

Subs for orders with reference to para 38 and 48 of the letter Supra

(1) What is the amount available now out of the water Suthly grant for 42-43?

(2) ~~The Amt~~ A sum of Rs 2,40,766 is still available out of the water Suthly Grant for the Current year

Rs 31,10,000

24/10

Subs 11/11

60. The estimate for the scheme of protected water supply to Mandvi Khavda area comes up to Rs 56000/- The Local Staff is not in a position to say anything further about the cost. Hence the entire Capital outlay will have to be borne by the Govt — This for consideration if this could be done now

61. The annual maintenance charges of the works are estimated to amount to Rs 3000/- which is proposed to be shared by the levy of certain additional taxes. It is however, problematical whether the Mandvi will realise the above amount even if the proposed taxes are levied. A small Municipality like Mandvi could not reasonably afford to meet such heavy maintenance charges and at a time of depression as has happened in the case of many other - even Town Municipalities who were fairly well to do

62. Even if the scheme is sanctioned, it may not perhaps be possible to get C.I. pipes from Bhadreshwar of the sizes of 4", 3" and 2½" - first at present as these 4" also difficulty for cement

In view of this Consideration alone, the

OFFICE OF THE MINISTER
FOR L S G & P H
Date 13-9-41
No. 517

Respected Sir,

You may be interested to know that Madder Mission Station has been under my jurisdiction for nearly a year and only last week I moved in to take up permanent work among the people whom God has entrusted to me

I have found the people friendly but practically expressionless. Malaria is so prevalent here and I am kept extremely busy supplying pills to sufferers besides my other work of which there is not a little

After conversation with the local municipality, I discovered that they had written you on July 17th or given you an addressed request for the Tap System Water Supply for Madder to improve the health of the people Spiritually and to a certain extent with medicines, Would you By the help of God, I am seeking to help these people be gracious enough to grant the Water Supply soon for these people and for us also? Let us Co-operate on behalf of those who are less fortunate than ourselves

I fully appreciate that it is War time, and I know how busy you must be as a Minister of Mysore State seeking to do your best for all but on behalf of Madder people so bowed down by Malaria I beseech you to supply the Water soon

Remaining Yours Very Respectfully

SUBJECT - Water Supply to Maddur Town

-O-

In continuation of this office letter of Even No dated 4-10-41 on the above subject, I have the honor to forward herewith a copy of letter No 627 dated 17-11-1941 received from the Sanitary Engineer Bureau of Sanitary - Engineering, Bangalore, in the matter and to state that the President Municipal Council, Maddur, has this day been requested to obtain the views of the Municipal Council re the manner in which they propose to meet the cost of the - water supply scheme A further report will be sent to you on hearing from him

I have the honor to be,
Sir,
Your most obedient servant,

Deputy Commissioner,
Mandya District

T M C

Letter No 427 dated 15/17-11-41 from the Sanitary Engineer, Bureau of Sanitary Engineering Bangalore, to the Deputy Commissioner Mandya District, Mandya

-000-

Re water Supply to Maddur Town

-0-

With reference to your letter No A 5 C 131/39-40 dated 4-10-41, forwarding copy of letter from the Secretary to Government Law Department and requesting this office to have a modified scheme prepared and forwarded to your office early, I have the honor to state that the amount of the original estimate was Rs 44,000/-

An alternative scheme for drawing the supply from the 29th distributary of the Irwin Canal at a point close to the New Inspection Lodge at Maddur has been prepared but the cost of this has come up to Rs 40250/- Just at present the cost of G I pipes and machinery has been prohibitively heavy and the fluctuation in the market is so great that it is not possible to estimate the actual further increase that is likely to becaused if the above scheme is undertaken for execution The source of supply being at such a level as not to be able to command the highest point in the town and the extension, pumping machinery is an absolute necessity The yield at the course is also likely to be contaminated so that it has been necessary to provide for filtration of the supply The installation of the filters is likely

to cost about Rs 6000/- and in order to save this investigations are being made if it is not possible to collect enough of sub-soil water at a point just below the channel so that the water may be supplied to the town with necessary chlorination if need be and thereby avoid the use of filters This alternative is likely to save about Rs 6000/- in the scheme so that even if this becomes successful the original cost for the water supply of Maddur Town will be about Rs 34000/-

This, however does not include water supply to Shivapura portion of Maddur Town and since this is far removed from Maddur Town proper an independent scheme for water supply to this area has also been prepared and this is estimated to cost Rs 15750/-

Taking the whole of Maddur Town including Shivapura into consideration the capital cost of the scheme will thus be about Rs 50,000/- and details for every item or work have already been prepared

The cost of the scheme as prepared at present is thus in excess of that which was returned by the Law Secretary to Government in his letter No L 2452/M1 53-38-3 dated 31st August 39 and I would therefore request you to kindly let me have your remarks in the matter since it is not possible to put up a cheaper scheme for affording a protected supply to Maddur and Shivapura at taps distributed all over the town

General No L 5 131/39
No

Enclosure No Nil

Sir

Subject - Water Supply Scheme of Maddur Minor Municipality

With reference to your letter No L 5135 dated 15-12-41, calling for a report on the above subject I have the honor to state that the President Maddur Municipal Council in his report No P C 178 dated 10-2-42 (copy enclosed) has stated that the subject was placed before the Municipal Council for their opinion regarding the question of meeting the cost of the scheme and that the council at their meeting held on 2-2-42 resolved that they cannot meet the moiety of the cost and that the entire cost has to be borne by Government

As regards the annual maintenance charges amounting to Rs 3825/- the President reports that the council proposed to levy General Water Tax at 0-4-0 in the rupee of Bohatarfa Tax and tax on private house connections at Rs 2/- per installation as water tax also levy toll on sugar-cane carts etc , and that the realisations under these heads after meeting

expenditure would be earmarked for meeting the annual maintenance charges of the Water Supply Scheme

As it is the Municipal Council is not in a position to meet ½ the cost of the scheme but in view of the urgency for protected water supply to this unhealthy town, it appears necessary that the entire cost has to be met by Government

The plans and estimates received from the President Maddur, are enclosed

I have the honor to be
Sir
Your most obedient servant,

K Bala Subramanyam
Assistant Committee
Deputy Commissioner
Mandya District
(absent from station)

T I C

Letter No P C 178 dated 10-2-42 from the President Municipal Council Maddur to the Deputy Commissioner Mandya

---

Re water supply to Maddur T o w n

In obedience to your Memo No A 5 C 131/39-40 dated 22-12-41 I beg to state that the above subject was discussed in the Municipal Council Meeting held on 2-2-42 It was resolved in the meeting to request the Government to provide tap water to the people of Maddur and Shivapura without the least assistance (of course financially) on the part of this Minor Municipality since it is certainly beyond the capacity of this Minor Municipality as kindly observed by the Law Secretary to contribute anything that may be demanded for the execution of the scheme in question It is not necessary to state here again the well known fact that the people of Maddur and Shivapura are inextricably bad in health suffering from the dreadful malaria This itself speaks to the necessity of pure and good water for maintaining at least normal health Hence I request you kindly to address the benevolent Government in favour of this question The extract of the meeting proceedings is submitted for kind orders

Subject -

Scheme for water supply to
Maddur and Seringapatam
Shivapura

-ooo-

With reference to your letter No L 10905/41 78-41-10 dated 14th May 1942, calling for the opinion of the Municipal Council regarding their willingness to bear their share of cost for the above scheme, I have the honor to state that the Municipal Council have resolved on 8th June 1942 that as already a loan of Rs 14000/- has been taken from Government for the extension of the town and some further loan would be necessary for the same work, they are not in a position to take any fresh loan for financing the water supply scheme They request that Government may be pleased to bear the entire expenditure taking in return the entire realisation by the levy of water tax

2 The President, Municipal Council, reports that in the present financial position of the Municipality it is impossible to contribute moiety of the cost of the scheme He further states that protected water supply is essential to maintain the general health conditions of the town

3 In this connection I wish to invite kind reference to Mysore Deputy Commissioner's letter No D 3 1921/38-39 dated 29th December 1938 and to state that the resources of the Municipality are quite slender and the income hardly suffices to meet the normal expenditure and as such it is not possible for the Municipal Council to bear any portion of the initial cost The Municipal Council pra

3 4

that both the initial and recurring expenditure may be borne Government Though there may be grounds to show some concession in regard to initial cost, there is no case made out for waiving the annual ~~general~~ maintenance charges The recurring expenditure has necessarily to be borne by the unicipal Council As stated by the President protected water supply is very essential particularly owing to the unhealthy condition of the place and the supply of filtered water would go a long way in improving the health of the public

4 In the circumstances, I recommend that Government may be pleased to bear the entire cost of the scheme as the Municipal Council are not really in a position to bear any portion of the cost thereof I have issued instructions to the President, Maddur, M C to place the subject of meeting the recurring expenditure before the Municipal Council and furnish their views

5. The connected records received with your letter are enclosed for kind reference

Sir,

Subject: Scheme for water supply to Maddur & Shivapura

In continuation of this office letter of even No dated 30-6-42, on the above subject, I have the honour to state that the President, Maddur Municipality, reports that the Municipal Council have at their meeting held on 7-9-1942, agreed to bear the recurring charges provided the initial charges are borne by Government

2 In this connection I wish to state that the Sanitary Engineer, while discussing with my predecessor in office on 23-7-1942, about the - - works to be undertaken in Mandya District, has - stated that it would not be possible to take up water supply schemes for the present for want of C I pipes But as the provision of protected water supply to Maddur Town is really very urgent and is pending from a long time, I request that the scheme may kindly be sanctioned and if the work ordered to be taken up during the current year

3 A copy of the resolution is enclosed for kind perusal

~~Sir~~,

Subject -Water-supply Scheme for Maddur

With reference to your letter No L 5806/M1 78-41-18 dated 10-12-1942 enquiring whether the required pipes for the water supply are available, I have the honour to state that as already reported in my letter dated 17-10-1942 the Sanitary Engineer, while discussing the subject on 23-7-1942 with my predecessor in Office, opined that fresh Schemes for water supply cannot be under-taken at present for want of G I Pipes as well as the rise in the prices of other materials Besides according to present rates, the estimate has to be revised and the cost of the scheme would surely go ver high However I have requested the Sanitary Engineer to furnish his views in the matter, on receipt of which, a final reply will be submitted to Government In view of the very urgent need for protected water supply at Maddur, the Sanitary Engineer, will be requested to see that the pipes required are ~~sanctioned~~ secured

Sir,

Water Supply Scheme for Laddur and Shivapura

With reference to your No L 5807 dated 10th December 1942 forwarding a copy of letter No L 5806/ML 78-41-18 of even date addressed to the Deputy Commissioner, Mandya on the above subject, I have the honour to inform that the Sanitary Engineer in his letter No 1209 dated 3rd March 1943 (vide copy enclosed) reports that C I pipes of 3 and 4" required for the work cannot be supplied by the Mysore Iron & Steel Works Bhadravathi and that 2½" C I pipes are not being manufactured by them at all The cost of the C I pipes which are said to be available, is very high and the two estimates for Rs 40,250 and Rs 15,750/- for Laddur and Shivapur would now go up to Rs 60,270/- and Rs 19,980/- respectively The schemes prepared during 1941 would therefore require revision

Under the above circumstances the Sanitary Engineer suggests the desirability of postponing the scheme until return to normal times and I agree with him

The plans and estimates are retransmitted herewith

I have the honour to be,
Sir,
Your most obedient servant,

Director of Public Health

---

Water supply scheme for Maddur and Shivapura

In continuation of this office memo No 859 dated 23-12-43 resubmitting your original memo No C 287-7 dated 11-12-1942 after note, I have the honour to state that as ascertained from the General Manager, Mysore Iron and Steel Works, Bhadravathi, it is found, that C I pipes of 3" and 4" required for the work cannot be supplied by them earlier than December 1943 and 2½" C I pipes are not being manufactured by them at all

Regarding C I pipes required for the work, they are available but at a very high cost and the two estimates for Rs 40,250/- and Rs 15,750/- for Maddur and Shivapur ~~xxx~~ towns would now go up to Rs 60,270/- and Rs 19,980/- The schemes prepared during the year 1941 would require revision

Under these circumstances, it is desirable to postpone the working of these schemes until such time, when returns to normal conditions The scheme is also herewith resubmitted
